

CARRANZA DESCRIBES CONDITIONS IN MEXICO

Peace and Harmony Now Prevail
Throughout Zone Controlled by
Constitutionalists.

WORKING AMICABLY TOGETHER

General Villa in Perfect Harmony,
and Promoted to Rank of Division-
General by Reason of Lovable
and Patriotic Attitude.

WASHINGTON, September 12.—Rafael Zebadua, of the Mexican Constitutionalists, announced to-night the receipt of the following message from General Carranza, chief of the Constitutional forces, on conditions in Mexico:

"The alarming reports that were being broadcast by the press in the United States as to the conditions in Mexico, are entirely untrue. The reports that a number of soldiers were shot in Mexico City is untrue. What actually occurred was a street fight between police and Constitutional troops. The affair was handled with no difficulty.

"Not a single Federal officer has been shot. The decree abolishing the order promulgated by the Governor of the Federal district and its military command, and in regard to the occupation of private property, and the formalities required for arrest, does not mean that we intend to take from the people their personal and property rights. The action was taken as a temporary measure.

"It is not true that the port of Vera Cruz has been closed.

"Peace and harmony prevail throughout the zone controlled by the Constitutionalists, which covers nearly the entire republic.

"The exaggerated reports relative to Zapata's activities are unfounded. The Constitutionalists are working amicably together to establish permanent peace and a stable government. All efforts as to divisions in our ranks are false.

"General Villa is working in perfect harmony and genuine subordination. His reason of being is to establish the attitude and in view of his high merit I have just promoted him to the rank of division-general.

"A large Constitutional force was dispatched to the lagoon of Tehuacan, where I have received 8,000 of these troops, because conditions now are peaceful.

"The stability of the new government is fully guaranteed by the support of an army of 120,000 men, animated with a spirit of patriotism.

"A trade boom in Monterrey, Mexico, was reported at the Department to-day by the consul-general, as due to the reopening of the railroads.

"Previous warnings to Americans looking for employment not to go to Tampico have been repeated. Many are unemployed and destitute in this district, reports state.

STATEMENTS OF GERMANS
"DEMONSTRABLY FALSE"

WASHINGTON, September 12.—German statements that snipers had been organized by the French two months before the war were denounced to-night at the French embassy as "demonstrably false." Several other German statements were denied in the statement, which said:

"The news from Berlin yesterday announced that Maubourg had been taken with four generals, two colonels and 400 men. The capture remains unconfirmed. Forty thousand men could not in any case have been made prisoners, for the garrison is less than 6,000.

"The alleged number are on a par with the news of the French aeroplane having dropped bombs over Nuremberg, and with that of snipers having been organized two months before the war.

"If there had been, some trace of them could probably have been found since, no one has. The truth is that neither before nor after Germany declared war on France was any such corps organized. And since the French are not able to bear arms is called as a regular to the colors, one can scarcely imagine what those corps would have been made of.

"The statement is demonstrably false.

"The embassy has been notified by the French government in response to an inquiry about the destruction of the Hotel de Ville in Louvain that, while the Hotel de Ville was not destroyed by fire, the scaffolding surrounding the building for purposes of repair was burned.

BOY SCOUT REAL WAR HERO

Carries Messages Through Lines and
Denounces German Spies.

PARIS, September 12.—The real hero of Belgium to-day is the Boy Scout Leysen, who has been decorated by King Albert for his valor and devotion to his country. This young man, who was born at Liege, is described by the Belgians as of almost uncanny sharpness, with senses and perception as keen as a hawk. He was able to find his way through the woods and pass the sentinels of the enemy with perfect accuracy.

Leysen made his way through the German lines from Antwerp for the first time last Sunday, carrying dispatches to secret representatives of the Belgian government in Brussels. He was discovered and detained eleven days, but his courage and devotion overcame a variety of other services, and it without impairing his boyish shyness.

A SURE WAY TO
END DANDRUFF

Stop Falling Hair and Itching
Scalp—At Once.

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then destroy it entirely. To do this, just get about your ounces of plain, common liquid from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four days more and it will be completely dissolved and entirely destroyed every single grain and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, all dry, brittle and lifeless, and everybody notices it.—Advertisement.
